Come Together

On March 31, 2014, the President of the United States signed the SGR ("Doc Fix") bill into law. That law officially postponed the implementation of ICD-10 until at least Oct. 1, 2015. Based on the new implementation date, CPSI has updated our ICD-10 timeline. The information below is an estimate as to when specific programming is expected to be complete. Please note that it is possible the estimates contained in this document may change due to unforeseen circumstances or future regulation changes. As programming changes are completed, they will be made available to CPSI customers on upcoming software updates.

Completed ICD-10 Changes

- Transition to the 5010 electronic billing file layout – *released on Version 1700*

- ICD-10 Diagnosis and Procedure code tables – *released on Version 1850*

- Infrastructure changes to capture and store ICD-10 codes – *released on Version 1850*

- New CW5 DRG Grouper Screen – *released on 1906.00*

- Ability to view ICD-10 codes that are returned from encoder interfaces – *released on 1906.00*

- CPSI ICD-10 DRG Computation Engine – *released on 1906.00*

- Ability to dual code patient accounts – *released on 1911.00*

- Ability to build electronic billing files that contain ICD-10 codes – *released on 1911.00*

- Automated physician queries –*released on 1911.00*

- Clinical Report – *released on 1911.00*

   o PFS Billing Report

- MP-EMR Financial; Charging / Coding screen – *released on 1912.00*

- Conversion of Psych PPS Table to CW5 – *released on 1912.00*

- HIM Reports

  o Coding Productivity Report – *released on 1908.00*

  o DRG Comparative Report – *released on 1911.00*

  o Patient Index Report – *released on 1912.00*

  o Top Diagnosis and Procedures – *released on 1915.00*

  o Disease Index – *released on 1915.00*

  o Physician Index – *released on 1915.00*

- Radiology Reports – *the following reports were released on 1915.00*

  o Patient Billing Information

  o Physician Services Log

  o Transcriptions by Date

  o Service Log by Dictating Physician

  o Interface Charge Exception Report

- Home Health Software – *anticipate release on 1916.00*

  o Referral Screen

  o Plan of Treatment

  o "Cert" option (bottom of Verbal Order screen)

4th Quarter, 2014

- Pathology

  o Expand Pre-op and Post-op diagnosis fields

- Pharmacy

  o Add ICD-10 to RX Diagnosis field

- Nursing Reports

    - Nursing Census (Regular)

    - Mini Census

    - Acuity by Nursing Station/Room

    - Physician Rounds Sheets

    - Acuity by Patient

1st Quarter, 2015

- Medical Necessity

- Utilization Review

- Risk Management

- QA Studies

- Physician Credentialing

- Infection Control

- Ancillary Reports

    - Dietary Reports (Rooms with Orders; All Patients; 3x5 Cards)

    - Procedure Schedule – Respiratory Care

    - Respiratory Active Order List

    - Respiratory Reorders Due

Need Specifications Before Programming Can Begin

(cannot provide expected completion date as we are not certain when specifications will be made available)

- Contract Management

- IRF-PAI

- Psych PPS

- Core Measures

- Home Health – OASIS-C1

- MP-EMR Financial

  o RHC UDS Report
